LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 1.—Food and kindred products; Tobacco manufactures

Based on a special tabulation of the 1954 Census of Manufactures.

Prepared by the Bureau of the Census, Robert W. Burgess, Director, and the Office of Area Development, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

BUREAU OF THE CENSUS
LIBRARY

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where* are the plants? *How big* are they?

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The **industries** included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The **States** are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

<u>New England</u>	<u>West North Central</u>	<u>West South Central</u>
Maine	Minnesota	Arkansas
New Hampshire	Iowa	Louisiana
Vermont	Missouri	Oklahoma
Massachusetts	North Dakota	Texas
Rhode Island	South Dakota	
Connecticut	Nebraska	<u>Mountain</u>
	Kansas	Montana
		Idaho
<u>Middle Atlantic</u>	<u>South Atlantic</u>	Wyoming
New York	Delaware	Colorado
New Jersey	Maryland	New Mexico
Pennsylvania	District of Columbia	Arizona
	Virginia	Utah
<u>East North Central</u>	West Virginia	Nevada
Ohio	North Carolina	
Indiana	South Carolina	<u>Pacific</u>
Illinois	Georgia	Washington
Michigan	Florida	Oregon
Wisconsin	<u>East South Central</u>	California
	Kentucky	
	Tennessee	
	Alabama	
	Mississippi	

3. All **counties** having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The **employment size class** assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 1.—Food and kindred products; Tobacco manufactures

(Sequence in which they appear)

Group 20: Food and kindred products

Ind. Code	Industry Title
2011	Meat packing plants
2013	Prepared meats
2015	Poultry dressing plants
2021	Creamery butter
2022	Natural cheese
2023	Concentrated milks
2024	Ice cream and ices
2025	Special dairy products
2026	Fluid milk
2027	Fluid milk and other products
2031	Canned seafood
2032	Cured fish
2033	Canned fruits and vegetables
2034	Dehydrated fruits and vegetables
2035	Pickles and sauces
2036	Packaged seafood
2037	Frozen fruits and vegetables
2041	Flour and meal
2042	Prepared animal feeds
2043	Cereal breakfast foods
2044	Rice milling
2045	Flour mixes
2051	Bread and related products
2052	Biscuit and crackers
2061	Raw cane sugar

Group 20: Food and kindred products—Con.

Ind. Code	Industry Title
2062	Cane sugar refining
2063	Beet sugar
2071	Confectionery products
2072	Chocolate and cocoa products
2073	Chewing gum
2081	Bottled soft drinks
2082	Beer and ale
2083	Malt
2084	Wines and brandy
2085	Distilled liquor, except brandy
2091	Leavening compounds
2092	Shortening and cooking oils
2093	Margarine
2094	Corn wet milling
2095	Flavorings
2097	Manufactured ice
2098	Macaroni and spaghetti
2099	Miscellaneous food preparations

Group 21: Tobacco manufactures

Ind. Code	Industry Title
2111	Cigarettes
2121	Cigars
2131	Chewing and smoking tobacco
2141	Tobacco stemming and redrying

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

**Part 2.—Textile mill products; Apparel and related products;
Leather and leather goods**

Based on a special tabulation of the 1954 Census of
Manufactures.

Prepared by the Bureau of the Census, Robert W.
Burgess, Director, and the Office of Area Develop-
ment, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where* are the plants? *How big* are they?

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The **industries** included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The **States** are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

<u>New England</u>	<u>West North Central</u>	<u>West South Central</u>
Maine	Minnesota	Arkansas
New Hampshire	Iowa	Louisiana
Vermont	Missouri	Oklahoma
Massachusetts	North Dakota	Texas
Rhode Island	South Dakota	
Connecticut	Nebraska	<u>Mountain</u>
	Kansas	Montana
		Idaho
<u>Middle Atlantic</u>	<u>South Atlantic</u>	Wyoming
New York	Delaware	Colorado
New Jersey	Maryland	New Mexico
Pennsylvania	District of Columbia	Arizona
	Virginia	Utah
<u>East North Central</u>	West Virginia	Nevada
Ohio	North Carolina	
Indiana	South Carolina	<u>Pacific</u>
Illinois	Georgia	Washington
Michigan	Florida	Oregon
Wisconsin	<u>East South Central</u>	California
	Kentucky	
	Tennessee	
	Alabama	
	Mississippi	

3. All **counties** having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The **employment size class** assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 2.—Textile mill products; Apparel and related products; Leather and leather goods

(Sequence in which they appear)

Group 22: Textile mill products

Ind. Code	Industry Title
2211	Scouring and combing plants
2212	Yarn mills, wool, except carpet
2213	Woolen and worsted fabrics
2216	Finishing wool textiles
2222	Yarn throwing mills
2223	Thread mills
2224	Yarn mills, cotton and silk system
2233	Cotton broad-woven fabrics
2234	Synthetic broad woven fabrics
2241	Narrow fabric mills
2251	Full-fashioned hosiery mills
2252	Seamless hosiery mills
2253	Knit outerwear mills
2254	Knit underwear mills
2255	Knit glove mills
2256	Knit fabric mills
2259	Knitting mills, n.e.c.
2261	Finishing textiles, except wool
2271	Wool carpets and rugs
2273	Carpets and rugs, except wool
2274	Hard-surface floor coverings
2281	Fur-felt hats and hat bodies
2282	Wool-felt hats and hat bodies
2283	Straw hats
2284	Hatters' fur

Group 22: Textile mill products—Con.

Ind. Code	Industry Title
2291	Felt goods, n.e.c.
2292	Lace goods
2293	Paddings and upholstery filling
2294	Processed textile waste
2295	Coated fabrics, except rubberized
2298	Cordage and twine
2299	Textile goods, n.e.c.

Group 23: Apparel and related products

Ind. Code	Industry Title
231A	Men's and boys' suits and coats--Manufacturers
231B	Men's and boys' suits and coats--Jobbers
231C	Men's and boys' suits and coats--Contractors
231	Men's and boys' suits and coats--Not specified
231D	Suit and coat findings--Manufacturers
231E	Suit and coat findings--Jobbers
231F	Suit and coat findings--Contractors
2321	Men's dress shirts and nightwear
2322	Men's and boys' underwear
2323	Men's and boys' neckwear
2325	Men's and boys' cloth hats
2326	Hat and cap materials
2327	Separate trousers
2328	Work shirts

Part 2.—Textile mill products; Apparel and related products; Leather and leather goods —Con.

Group 23: Apparel and related products—Con.

Ind. Code	Industry Title
2329	Men's and boys' clothing, n.e.c.
2331	Blouses
2333	Dresses, unit price
2334	Dresses, dozen price
2337	Women's suits, coats and skirts
2338	Women's neckwear and scarfs
2339	Women's outerwear, n.e.c.
2341	Women's and children's underwear
2342	Corsets and allied garments
2351	Millinery
2361	Children's dresses
2363	Children's coats
2369	Children's outerwear, n.e.c.
2371	Fur goods
2381	Fabric dress gloves
2382	Fabric work gloves
2383	Suspenders and garters
2384	Robes and dressing gowns
2385	Waterproof outer garments
2386	Leather and sheep-lined clothing
2387	Belts
2388	Handkerchiefs
2389	Apparel, n.e.c.

Group 23: Apparel and related products—Con.

Ind. Code	Industry Title
2391	Curtains and draperies
2392	Housefurnishings, n.e.c.
2393	Textile bags
2394	Canvas products
2395	Tucking, pleating and stitching
2396	Trimmings and art goods
2397	Schiffli-machine embroideries
2398	Embroideries, except schiffli
2399	Textile products, n.e.c.

Group 31: Leather and leather goods

Ind. Code	Industry Title
3111	Leather tanning and finishing
3121	Industrial leather belting
3131	Footwear cut stock
3141	Footwear, except rubber
3142	House slippers
3151	Leather dress gloves
3152	Leather work gloves
3161	Luggage
3171	Handbags and purses
3172	Small leather goods
3192	Saddlery, harness, and whips
3199	Leather goods, n.e.c.

LOCATION OF MANUFACTURING PLANTS

**By Industry, County,
And Employment Size
1954**

**Part 3.—LUMBER AND WOOD PRODUCTS;
FURNITURE AND FIXTURES**

U. S. DEPARTMENT OF COMMERCE

Location of Manufacturing Plants by Industry, County, and Employment Size: 1954

	Price
Part 1.—Food and kindred products; Tobacco manufactures	\$1.00
Part 2.—Textile mill products; Apparel and related products; Leather and leather goods.....	1.00
Part 3.—Lumber and wood products; Furniture and fixtures.....	.65
Part 4.—Pulp, paper and products; Printing and publishing60
Part 5.—Chemical and products; Petroleum and coal products; Rubber products60
Part 6.—Stone, clay, and glass products; Miscellaneous manufactures75
Part 7.—Primary metal industries; Fabricated metal products.....	.65
Part 8.—Machinery, except electrical; Electrical machinery.....	.75
Part 9.—Transportation equipment; Instruments and related products.....	.40

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 3.—Lumber and wood products; Furniture and fixtures

Based on a special tabulation of the 1954 Census of
Manufactures.

Prepared by the Bureau of the Census, Robert W.
Burgess, Director, and the Office of Area Develop-
ment, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE
Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where* are the plants? *How big* are they?

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The **industries** included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The **States** are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

<u>New England</u>	<u>West North Central</u>	<u>West South Central</u>
Maine	Minnesota	Arkansas
New Hampshire	Iowa	Louisiana
Vermont	Missouri	Oklahoma
Massachusetts	North Dakota	Texas
Rhode Island	South Dakota	
Connecticut	Nebraska	<u>Mountain</u>
	Kansas	Montana
		Idaho
<u>Middle Atlantic</u>	<u>South Atlantic</u>	Wyoming
New York	Delaware	Colorado
New Jersey	Maryland	New Mexico
Pennsylvania	District of Columbia	Arizona
	Virginia	Utah
	West Virginia	Nevada
<u>East North Central</u>	North Carolina	
Ohio	South Carolina	<u>Pacific</u>
Indiana	Georgia	Washington
Illinois	Florida	Oregon
Michigan	<u>East South Central</u>	California
Wisconsin	Kentucky	
	Tennessee	
	Alabama	
	Mississippi	

3. All **counties** having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The **employment size class** assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 3.—Lumber and wood products; Furniture and fixtures

(Sequence in which they appear)

Group 24: Lumber and wood products

Ind. Code	Industry Title
2411	Logging camps and contractors
2421	Sawmills and planing mills
2422	Veneer mills
2423	Shingle mills
2424	Cooperage stock mills
2425	Excelsior mills
2431	Millwork plants
2432	Plywood plants
2433	Prefabricated wood products
2441	Fruit and vegetable baskets
2442	Rattan and willow ware
2443	Cigar boxes
2444	Wooden boxes
2445	Cooperage
2491	Wood preserving
2492	Lasts and related products
2493	Mirror and picture frames
2499	Wood products, n.e.c.

Group 25: Furniture and fixtures

Ind. Code	Industry Title
2511	Wood furniture, not upholstered
2512	Household furniture, upholstered
2514	Metal house furniture
2515	Mattresses and bedsprings
2519	Household furniture, n.e.c.
2521	Wood office furniture
2522	Metal office furniture
2531	Public bldg. and related furniture
2532	Professional furniture
2541	Partitions and fixtures
2561	Window and door screens
2562	Window shades
2563	Venetian blinds
2591	Restaurant furniture
2599	Furniture and fixtures, n.e.c.

LOCATION OF MANUFACTURING PLANTS

**By Industry, County,
And Employment Size
1954**

**Part 4.—PULP, PAPER AND PRODUCTS;
PRINTING AND PUBLISHING**

U. S. DEPARTMENT OF COMMERCE

Location of Manufacturing Plants by Industry, County, and Employment Size: 1954

	Price
Part 1.--Food and kindred products; Tobacco manufactures	\$1.00
Part 2.--Textile mill products; Apparel and related products; Leather and leather goods.....	1.00
Part 3.--Lumber and wood products; Furniture and fixtures.....	.65
Part 4.--Pulp, paper and products; Printing and publishing60
Part 5.--Chemical and products; Petroleum and coal products; Rubber products60
Part 6.--Stone, clay, and glass products; Miscellaneous manufactures75
Part 7.--Primary metal industries; Fabricated metal products.....	.65
Part 8.--Machinery, except electrical; Electrical machinery.....	.75
Part 9.--Transportation equipment; Instruments and related products.....	.40

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 4.—Pulp, paper and products; Printing and publishing

Based on a special tabulation of the 1954 Census of Manufactures.

Prepared by the Bureau of the Census, Robert W. Burgess, Director, and the Office of Area Development, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where are the plants? How big are they?*

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The **industries** included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The **States** are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

<u>New England</u>	<u>West North Central</u>	<u>West South Central</u>
Maine	Minnesota	Arkansas
New Hampshire	Iowa	Louisiana
Vermont	Missouri	Oklahoma
Massachusetts	North Dakota	Texas
Rhode Island	South Dakota	
Connecticut	Nebraska	<u>Mountain</u>
	Kansas	Montana
<u>Middle Atlantic</u>	<u>South Atlantic</u>	Idaho
New York	Delaware	Wyoming
New Jersey	Maryland	Colorado
Pennsylvania	District of Columbia	New Mexico
	Virginia	Arizona
<u>East North Central</u>	West Virginia	Utah
Ohio	North Carolina	Nevada
Indiana	South Carolina	
Illinois	Georgia	<u>Pacific</u>
Michigan	Florida	Washington
Wisconsin	<u>East South Central</u>	Oregon
	Kentucky	California
	Tennessee	
	Alabama	
	Mississippi	

3. All **counties** having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*—In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The **employment size class** assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 4.—Pulp, paper, and products; Printing and publishing

(Sequence in which they appear)

Group 26: Pulp, paper, and products

Ind. Code	Industry Title
2611	Pulp mills
2612	Paper and paperboard mills
2613	Building paper and board mills
2641	Paper coating and glazing
2651	Envelopes
2661	Paper bags
2671	Paperboard boxes
2674	Fiber cans, tubes, and drums
2691	Die-cut paper and board
2693	Wallpaper
2694	Pulp goods, pressed and molded
2699	Paper and board products, n.e.c.

Group 27: Printing and publishing

Ind. Code	Industry Title
2711	Newspapers
2721	Periodicals
2731	Books, publishing and printing
2732	Book printing
2741	Miscellaneous publishing
2751	Commercial printing
2761	Lithographing
2771	Greeting cards
2781	Bookbinding
2782	Blankbooks and paper ruling
2783	Loose-leaf binders and devices
2789	Miscellaneous book binding work
2791	Typesetting
2792	Engraving and plate printing
2793	Photoengraving
2794	Electrotyping and stereotyping

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 5.—Chemical and products; Petroleum and coal products; Rubber products

Based on a special tabulation of the 1954 Census of
Manufactures.

Prepared by the Bureau of the Census, Robert W.
Burgess, Director, and the Office of Area Develop-
ment, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where are the plants? How big are they?*

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The **industries** included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The **States** are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

<u>New England</u>	<u>West North Central</u>	<u>West South Central</u>
Maine	Minnesota	Arkansas
New Hampshire	Iowa	Louisiana
Vermont	Missouri	Oklahoma
Massachusetts	North Dakota	Texas
Rhode Island	South Dakota	
Connecticut	Nebraska	<u>Mountain</u>
	Kansas	Montana
		Idaho
<u>Middle Atlantic</u>	<u>South Atlantic</u>	Wyoming
New York	Delaware	Colorado
New Jersey	Maryland	New Mexico
Pennsylvania	District of Columbia	Arizona
	Virginia	Utah
<u>East North Central</u>	West Virginia	Nevada
Ohio	North Carolina	
Indiana	South Carolina	<u>Pacific</u>
Illinois	Georgia	Washington
Michigan	Florida	Oregon
Wisconsin	<u>East South Central</u>	California
	Kentucky	
	Tennessee	
	Alabama	
	Mississippi	

3. All **counties** having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The **employment size class** assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 5.—Chemical and products; Petroleum and coal products; Rubber products

(Sequence in which they appear)

Group 28: Chemicals and products

Ind. Code	Industry Title
2811	Sulfuric acid
2812	Alkalies and chlorine
2819	Inorganic chemicals, n.e.c.
2821	Cyclic crudes
2822	Intermediates and organic colors
2823	Plastics materials and elastomers
2824	Synthetic rubber
2825	Synthetic fibers
2826	Explosives
2829	Industrial organic chemicals, n.e.c.
2831	Biological products
2833	Medicinal chemicals
2834	Pharmaceutical preparations
2841	Soap and glycerin
2842	Cleaning and polishing products
2843	Sulfonated oils and assistants
2851	Paints and varnishes
2852	Inorganic color pigments
2853	Whiting and fillers
2861	Hardwood distillation
2862	Softwood distillation
2863	Gum naval stores
2865	Tanning and dyeing materials
2871	Fertilizers
2872	Fertilizers, mixing only
2881	Cottonseed oil mills
2882	Linseed oil mills
2883	Soybean oil mills
2884	Vegetable oil mills, n.e.c.

Group 28: Chemicals and products—Con.

Ind. Code	Industry Title
2886	Grease and tallow
2887	Fatty acids
2889	Animal oils, n.e.c.
2891	Printing ink
2892	Essential oils
2893	Toilet preparations
2894	Glue and gelatin
2895	Carbon black
2896	Compressed and liquefied gases
2897	Insecticides and fungicides
2898	Salt
2899	Chemical products, n.e.c.

Group 29: Petroleum and coal products

Ind. Code	Industry Title
2911	Petroleum refining
2931	Beehive coke ovens
2932	Byproduct coke ovens
2951	Paving mixtures and blocks
2952	Roofing felts and coatings
2992	Lubricants, n.e.c.
2999	Petroleum and coal products, n.e.c.

Group 30: Rubber products

Ind. Code	Industry Title
3011	Tires and inner tubes
3021	Rubber footwear
3031	Reclaimed footwear
3099	Rubber industries, n.e.c.

LOCATION OF MANUFACTURING PLANTS

**By Industry, County,
And Employment Size
1954**

**Part 6.—STONE, CLAY, AND GLASS
PRODUCTS;
MISCELLANEOUS MANUFACTURES**

U. S. DEPARTMENT OF COMMERCE

Location of Manufacturing Plants by Industry, County, and Employment Size: 1954

	Price
Part 1.--Food and kindred products; Tobacco manufactures	\$1.00
Part 2.--Textile mill products; Apparel and related products; Leather and leather goods.....	1.00
Part 3.--Lumber and wood products; Furniture and fixtures.....	.65
Part 4.--Pulp, paper and products; Printing and publishing60
Part 5.--Chemical and products; Petroleum and coal products; Rubber products60
Part 6.--Stone, clay, and glass products; Miscellaneous manufactures75
Part 7.--Primary metal industries; Fabricated metal products.....	.65
Part 8.--Machinery, except electrical; Electrical machinery.....	.75
Part 9.--Transportation equipment; Instruments and related products.....	.40

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price 75 cents.
Copies may be purchased also from U. S. Department of Commerce Field Offices.

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 6.—Stone, clay, and glass products; Miscellaneous manufactures

Based on a special tabulation of the 1954 Census of Manufactures.

Prepared by the Bureau of the Census, Robert W. Burgess, Director, and the Office of Area Development, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where* are the plants? *How big* are they?

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The industries included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The States are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

New England

Maine
New Hampshire
Vermont
Massachusetts
Rhode Island
Connecticut

Middle Atlantic

New York
New Jersey
Pennsylvania

East North Central

Ohio
Indiana
Illinois
Michigan
Wisconsin

West North Central

Minnesota
Iowa
Missouri
North Dakota
South Dakota
Nebraska
Kansas

South Atlantic

Delaware
Maryland
District of Columbia
Virginia
West Virginia
North Carolina
South Carolina
Georgia
Florida

East South Central

Kentucky
Tennessee
Alabama
Mississippi

West South Central

Arkansas
Louisiana
Oklahoma
Texas

Mountain

Montana
Idaho
Wyoming
Colorado
New Mexico
Arizona
Utah
Nevada

Pacific

Washington
Oregon
California

3. All counties having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The employment size class assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 6.—Stone, clay, and glass products; Miscellaneous manufactures

(Sequence in which they appear)

Group 32: Stone, clay, and glass products

Ind. Code	Industry Title
3211	Flat glass
3221	Glass containers
3229	Pressed and blown glassware, n.e.c.
3231	Products of purchased glass
3241	Cement, hydraulic
3251	Brick and hollow tile
3253	Clay floor and wall tile
3254	Clay sewer pipe
3255	Clay refractories
3259	Structural clay products, n.e.c.
3261	Vitreous plumbing fixtures
3262	Vitreous-china food utensils
3263	Earthenware food utensils
3264	Porcelain electrical supplies
3265	China decorating for the trade
3269	Pottery products, n.e.c.
3271	Concrete products
3272	Gypsum products
3274	Lime
3275	Mineral wool
3281	Cut-stone and stone products
3291	Abrasive products
3292	Asbestos products
3293	Gaskets and asbestos insulations
3295	Minerals, ground or treated

Group 32: Stone, clay, and glass products—Con.

Ind. Code	Industry Title
3297	Nonclay refractories
3298	Statuary and art goods
3299	Nonmetallic mineral products, n.e.c.

Group 39: Miscellaneous manufactures

Ind. Code	Industry Title
3911	Jewelry
3912	Jewelers' findings
3913	Lapidary work
3914	Silverware and plated ware
3931	Pianos
3932	Organs
3933	Piano and organ parts
3939	Musical instruments, n.e.c.
3941	Games and toys, n.e.c.
3942	Dolls
3943	Children's vehicles
3949	Sporting and athletic goods
3951	Pens and mechanical pencils
3952	Lead pencils and crayons
3953	Hand stamps and stencils
3954	Artists' materials
3955	Carbon paper and inked ribbons
3961	Costume jewelry
3962	Artificial flowers
3963	Buttons

Part 6.—Stone, clay, and glass products; Miscellaneous manufactures— Con.

Group 39: Miscellaneous manufactures—Con.

Ind. Code	Industry Title
3964	Needles, pins, and fasteners
3971	Plastics products, n.e.c.
3981	Brooms and brushes
3982	Cork products
3983	Matches
3984	Candles
3985	Fireworks and pyrotechnics
3986	Jewelry and instrument cases
3987	Lamp shades

Group 39: Miscellaneous manufactures—Con.

Ind. Code	Industry Title
3988	Morticians' goods
3991	Beauty and barber-shop equipment
3992	Furs, dressed and dyed
3993	Signs and advertising displays
3994	Hairwork
3995	Umbrellas, parasols, and canes
3996	Tobacco pipes
3997	Soda-fountain and bar equipment
3999	Miscellaneous products, n.e.c.

LOCATION OF MANUFACTURING PLANTS

**By Industry, County,
And Employment Size
1954**

**Part 7.—PRIMARY METAL INDUSTRIES;
FABRICATED METAL PRODUCTS**

U. S. DEPARTMENT OF COMMERCE

Location of Manufacturing Plants by Industry, County, and Employment Size: 1954

	Price
Part 1.—Food and kindred products; Tobacco manufactures	\$1.00
Part 2.—Textile mill products; Apparel and related products; Leather and leather goods.....	1.00
Part 3.—Lumber and wood products; Furniture and fixtures.....	.65
Part 4.—Pulp, paper and products; Printing and publishing60
Part 5.—Chemical and products; Petroleum and coal products; Rubber products60
Part 6.—Stone, clay, and glass products; Miscellaneous manufactures75
Part 7.—Primary metal industries; Fabricated metal products.....	.65
Part 8.—Machinery, except electrical; Electrical machinery.....	.75
Part 9.—Transportation equipment; Instruments and related products.....	.40

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price 65 cents.
Copies may be purchased also from U. S. Department of Commerce Field Offices.

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 7.—Primary metal industries; Fabricated metal products

Based on a special tabulation of the 1954 Census of Manufactures.

Prepared by the Bureau of the Census, Robert W. Burgess, Director, and the Office of Area Development, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where* are the plants? *How big* are they?

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The industries included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The States are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

New England

Maine
New Hampshire
Vermont
Massachusetts
Rhode Island
Connecticut

Middle Atlantic

New York
New Jersey
Pennsylvania

East North Central

Ohio
Indiana
Illinois
Michigan
Wisconsin

West North Central

Minnesota
Iowa
Missouri
North Dakota
South Dakota
Nebraska
Kansas

South Atlantic

Delaware
Maryland
District of Columbia
Virginia
West Virginia
North Carolina
South Carolina
Georgia
Florida

East South Central

Kentucky
Tennessee
Alabama
Mississippi

West South Central

Arkansas
Louisiana
Oklahoma
Texas

Mountain

Montana
Idaho
Wyoming
Colorado
New Mexico
Arizona
Utah
Nevada

Pacific

Washington
Oregon
California

3. All counties having one or more plants in an industry appear in alphabetical sequence within each State. (Note.--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The employment size class assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 7.—Primary metal industries; Fabricated metal products

(Sequence in which they appear)

Group 33: Primary metal industries

Ind. Code	Industry Title
3311	Blast furnaces
3312	Steel works and rolling mills
3313	Electrometallurgical products
3321	Gray-iron foundries
3322	Malleable-iron foundries
3323	Steel foundries
3331	Primary copper
3332	Primary lead
3333	Primary zinc
3334	Primary aluminum
3339	Primary nonferrous metals, n.e.c.
3341	Secondary nonferrous metals
3351	Copper rolling and drawing
3352	Aluminum rolling and drawing
3359	Rolling and drawing, n.e.c.
3361	Nonferrous foundries
3391	Iron and steel forgings
3392	Wire drawing
3393	Welded and heavy-riveted pipe
3399	Primary metal industries, n.e.c.

Group 34: Fabricated metal products

Ind. Code	Industry Title
3411	Tin cans and other tinware
3421	Cutlery
3422	Edge tools
3423	Hand tools, n.e.c.

Group 34: Fabricated metal products—Con.

Ind. Code	Industry Title
3424	Files
3425	Hand saws and saw blades
3429	Hardware, n.e.c.
3431	Plumbing fixtures and fittings
3439	Heating and cooking equipment, n.e.c.
3441	Structural and ornamental work
3442	Metal doors sash and trim
3443	Boiler shop products
3444	Sheet metal work
3461	Vitreous-enameled products
3463	Metal stampings
3465	Enameling and lacquering
3466	Galvanizing
3467	Engraving on metal
3468	Plating and polishing
3471	Lighting fixtures
3481	Nails and spikes
3489	Wirework, n.e.c.
3491	Metal barrels, drums, and pails
3492	Safes and vaults
3493	Steel springs
3494	Bolts, nuts, washers and rivets
3495	Screw-machine products
3496	Collapsible tubes
3497	Metal foil
3499	Fabricated metal products, n.e.c.

LOCATION OF MANUFACTURING PLANTS

**By Industry, County,
And Employment Size
1954**

**Part 8.—MACHINERY, EXCEPT ELECTRICAL;
ELECTRICAL MACHINERY**

U. S. DEPARTMENT OF COMMERCE

Location of Manufacturing Plants by Industry, County, and Employment Size: 1954

	Price
Part 1.--Food and kindred products; Tobacco manufactures	\$1.00
Part 2.--Textile mill products; Apparel and related products; Leather and leather goods.....	1.00
Part 3.--Lumber and wood products; Furniture and fixtures.....	.65
Part 4.--Pulp, paper and products; Printing and publishing60
Part 5.--Chemical and products; Petroleum and coal products; Rubber products60
Part 6.--Stone, clay, and glass products; Miscellaneous manufactures75
Part 7.--Primary metal industries; Fabricated metal products.....	.65
Part 8.--Machinery, except electrical; Electrical machinery.....	.75
Part 9.--Transportation equipment; Instruments and related products.....	.40

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price 75 cents.
Copies may be purchased also from U. S. Department of Commerce Field Offices.

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 8.—Machinery, except electrical; Electrical machinery

Based on a special tabulation of the 1954 Census of Manufactures.

Prepared by the Bureau of the Census, Robert W. Burgess, Director, and the Office of Area Development, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where are the plants? How big are they?*

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The **industries** included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The **States** are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

<u>New England</u>	<u>West North Central</u>	<u>West South Central</u>
Maine	Minnesota	Arkansas
New Hampshire	Iowa	Louisiana
Vermont	Missouri	Oklahoma
Massachusetts	North Dakota	Texas
Rhode Island	South Dakota	
Connecticut	Nebraska	<u>Mountain</u>
	Kansas	Montana
		Idaho
<u>Middle Atlantic</u>	<u>South Atlantic</u>	Wyoming
New York	Delaware	Colorado
New Jersey	Maryland	New Mexico
Pennsylvania	District of Columbia	Arizona
	Virginia	Utah
	West Virginia	Nevada
<u>East North Central</u>	North Carolina	
Ohio	South Carolina	<u>Pacific</u>
Indiana	Georgia	Washington
Illinois	Florida	Oregon
Michigan		California
Wisconsin	<u>East South Central</u>	
	Kentucky	
	Tennessee	
	Alabama	
	Mississippi	

3. All **counties** having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The **employment size class** assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 8.—Machinery, except electrical; Electrical machinery

(Sequence in which they appear)

Group 35: Machinery, except electrical

Ind. Code	Industry Title
3511	Steam engines and turbines
3519	Internal combustion engines
3521	Tractors
3522	Farm machinery, except tractors
3531	Construction and mining machinery
3532	Oil-field machinery and tools
3541	Machine tools
3542	Metalworking machinery
3544	Special dies and tools
3545	Metalworking machinery attachments
3551	Food-products machinery
3552	Textile machinery
3553	Woodworking machinery
3554	Paper-industries machinery
3555	Printing-trades machinery
3559	Special-industry machinery, n.e.c.
3561	Pumps and compressors
3562	Elevators and escalators
3563	Conveyors
3564	Blowers and fans
3565	Industrial trucks and tractors
3566	Power transmission equipment
3567	Industrial furnaces and ovens
3568	Mechanical stokers
3569	General industrial mach., n.e.c.

Group 35: Machinery, except electrical—Con.

Ind. Code	Industry Title
3571	Computing and related machines
3472	Typewriters
3576	Scales and balances
3579	Office and store machines, n.e.c.
3581	Domestic laundry equipment
3582	Laundry and dry-cleaning machinery
3583	Sewing machines
3584	Vacuum cleaners
3585	Refrigeration machinery
3586	Measuring and dispensing pumps
3589	Service and household machinery, n.e.c.
3591	Valves and fittings, except plumbing
3592	Fabricated pipe and fittings
3593	Ball and roller bearings
3594	Industrial patterns and molds
3599	Machine shops

Group 36: Electrical machinery

Ind. Code	Industry Title
3611	Wiring devices and supplies
3612	Carbon and graphite products
3613	Electrical measuring instruments
3614	Motors and generators
3615	Transformers

Part 8.—Machinery, except electrical; Electrical machinery—Con.

Group 36: Electrical machinery—Con.

Ind. Code	Industry Title
3616	Electrical control apparatus
3617	Electrical welding apparatus
3619	Electrical industrial apparatus
3621	Electrical appliances
3631	Insulated wire and cable
3641	Engine electrical equipment
3651	Electric lamps
3661	Radios and related products

Group 36: Electrical machinery—Con.

Ind. Code	Industry Title
3662	Electronic tubes
3663	Phonograph records
3664	Telephone and telegraph equipment
3669	Communications equipment, n.e.c.
3691	Storage batteries
3692	Primary batteries
3693	X-ray and therapeutic apparatus
3699	Electrical products, n.e.c.

LOCATION OF MANUFACTURING PLANTS

**By Industry, County,
And Employment Size
1954**

**Part 9.—TRANSPORTATION EQUIPMENT;
INSTRUMENTS AND RELATED
PRODUCTS**

U. S. DEPARTMENT OF COMMERCE

Location of Manufacturing Plants by Industry, County, and Employment Size: 1954

	Price
Part 1.--Food and kindred products; Tobacco manufactures	\$1.00
Part 2.--Textile mill products; Apparel and related products; Leather and leather goods.....	1.00
Part 3.--Lumber and wood products; Furniture and fixtures.....	.65
Part 4.--Pulp, paper and products; Printing and publishing60
Part 5.--Chemical and products; Petroleum and coal products; Rubber products60
Part 6.--Stone, clay, and glass products; Miscellaneous manufactures75
Part 7.--Primary metal industries; Fabricated metal products.....	.65
Part 8.--Machinery, except electrical; Electrical machinery.....	.75
Part 9.--Transportation equipment; Instruments and related products.....	.40

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price 40 cents.
Copies may be purchased also from U. S. Department of Commerce Field Offices.

LOCATION OF MANUFACTURING PLANTS BY INDUSTRY, COUNTY, AND EMPLOYMENT SIZE: 1954

Part 9.—Transportation Equipment; Instruments and related products

Based on a special tabulation of the 1954 Census of Manufactures.

Prepared by the Bureau of the Census, Robert W. Burgess, Director, and the Office of Area Development, Victor Roterus, Director.

1959

U. S. DEPARTMENT OF COMMERCE

Lewis L. Strauss, Secretary

Acknowledgements

This series of publications is the result of a special tabulation of 1954 Census of Manufactures data prepared by the Bureau of the Census as a joint undertaking with the Office of Area Development.

In the Office of Area Development, the conception and planning was the work of Murray D. Dessel under the general supervision of Roger A. Prior, Chief of the Resources Analysis Division. Important contributions were made by Gordon E. Reckord, Assistant to the Director.

In the Industry Division of the Bureau of the Census, staff members who made significant contributions in developing the project and solving its technical problems included Maxwell R. Conklin, Chief of that Division, and Owen C. Gretton, Irving Rottenberg, and Arthur W. Horowitz of his staff. Marion D. Bingham, Chief, Economics Operations Division, and Sol Dolleck and Jack Scharff of his staff provided valuable technical assistance.

Foreword

This publication represents another step forward in the development of accurate and uniform plant data, cross-classified by industry and geography, required by technicians in many applied economic fields. It will provide the most detailed picture available to date for those who need fairly precise answers to two questions concerning the manufacturing establishments in each particular industry: *Where* are the plants? *How big* are they?

For the first time, through this publication, official census information is presented for each of some 450 different manufacturing industries, showing in detail the county location and employment size of each plant in the industry. In the Census volumes, actual figures on employment and other measures cannot be published in such industry-area precision without disclosing figures for individual companies. Accordingly, the publication fills in many of the data gaps necessarily arising in the regular 1954 Census of Manufactures published tables. For many analytical purposes actual plant figures are not needed. Instead, the detailed count of manufacturing plants in this publication, cross-classified by industry, county, and size provides a revealing picture that will be useful to: (a) those involved in economic development programs at the regional, State, and local area levels; (b) those engaged in industrial market analysis or allocation of sales territories; and (c) those concerned with industrial dispersion, regional shifts of industry, and similar problems of public policy.

While this publication does not reflect the changes in industry, location, and plant size that have occurred in 1955 and subsequent years, the basic distribution pattern for most industries is probably still largely valid today. For those technicians interested in particular industries which have trade association plant directories and an active trade press, it should be possible to supplement these tables with data on plant births and expansions since 1954, in order to bring the picture up-to-date. Tentatively, the Bureau of the Census plans to publish at a later date a similar series of reports, based on the 1958 Census of Manufactures.

How To Use This Publication

The number of manufacturing plants is presented in industry, State, and county sequence, by employment size. A brief description of each of these elements is given below, to assist the reader in using the tables which follow:

1. The **industries** included in this report appear in the "Standard Industrial Classification" (4-digit code) sequence, as published in the *1954 Census of Manufactures*. A full description of each industry, its processes, and its products appears in Volume II, "Industry Statistics," of the 1954 Census. In addition, a convenient summary description of each industry appears in *Appendix A* of Volume I, "Summary Statistics," and Volume III, "Area Statistics."

2. The **States** are tabulated within each industry by Census Bureau regional groupings. (Only the Continental U. S. is included in this report. Territories and possessions are excluded). Note that each State title line includes an abbreviated identification of the region to which the State is assigned (i.e. "MAINE--NEW ENG."). The Census regional-State sequence used in the report is as follows:

<u>New England</u>	<u>West North Central</u>	<u>West South Central</u>
Maine	Minnesota	Arkansas
New Hampshire	Iowa	Louisiana
Vermont	Missouri	Oklahoma
Massachusetts	North Dakota	Texas
Rhode Island	South Dakota	
Connecticut	Nebraska	<u>Mountain</u>
	Kansas	Montana
<u>Middle Atlantic</u>	<u>South Atlantic</u>	Idaho
New York	Delaware	Wyoming
New Jersey	Maryland	Colorado
Pennsylvania	District of Columbia	New Mexico
	Virginia	Arizona
<u>East North Central</u>	West Virginia	Utah
Ohio	North Carolina	Nevada
Indiana	South Carolina	
Illinois	Georgia	<u>Pacific</u>
Michigan	Florida	Washington
Wisconsin	<u>East South Central</u>	Oregon
	Kentucky	California
	Tennessee	
	Alabama	
	Mississippi	

3. All **counties** having one or more plants in an industry appear in alphabetical sequence within each State. (*Note.*--In some few instances the Census Univac tapes contained plant counts assigned to "impossible" county codes, due to earlier clerical processing errors. Such plants are shown immediately preceding the STATE TOTAL line and are identified as "UNASSIGNED WITHIN STATE." Similarly, in those instances where an "impossible" State code was assigned, such plants are listed immediately preceding the U. S. TOTAL line and are identified as "UNASSIGNED BY STATE".)

4. The **employment size class** assigned to each plant is based on the "average" 1954 employment total reported by the plant. Both "production workers" and "all other employees" at the manufacturing plant are included in this total figure. For most (non-seasonal) industries, the plant employment figure represents the average employment of the four mid-month payroll periods in March, May, August, and November. For a relatively few seasonal industries, the plant average is based on the mid-month pay periods of all 12 months of 1954. The employment size classes do *not*, therefore, represent "maximum" or "anticipated" employment size, but are approximations to the annual average for 1954.

Industries Included in This Publication

Part 9.—Transportation Equipment; Instruments and related products

(Sequence in which they appear)

<i>Major Group 37: Transportation equipment</i>		<i>Major Group 38: Instruments and related products</i>	
Ind. Code	Industry Title	Ind. Code	Industry Title
3713	Truck and bus bodies	3811	Scientific instruments

LOCATION OF MANUFACTURING PLANTS

By Industry, County,
And Employment Size
1954

SUPPLEMENT - AVERAGE EMPLOYMENT AT
MANUFACTURING ESTABLISHMENTS -
FOR INDUSTRY GROUPS AND SELECTED
INDUSTRIES

U. S. DEPARTMENT OF COMMERCE

1954 CENSUS OF MANUFACTURES

AVERAGE EMPLOYMENT AT MANUFACTURING ESTABLISHMENTS FOR INDUSTRY GROUPS AND SELECTED INDUSTRIES

The data shown in the following table were compiled to aid the users of the reports "Location of Manufacturing Plants - By Industry, County and Employment Size: 1954" to prepare reliable estimates of the employment represented by the establishments in the industry-county-size classes. The averages were derived from the figures published in 1954 Census of Manufactures, Volume 1, Summary Statistics, Chapter III, Size of Establishments. Data are shown for all major industry groups (2-digit) and for individual industries (4-digit) having more than 1,000 establishments in 1954. Comparable figures for the smaller industries not included in the following table may be obtained by using the establishment and employment figures published in the "Size of Establishments" table.

Data which cannot be shown without disclosing information for individual companies have been combined with figures for other size classes. A (D) appears in the column where the figure has been omitted and the combined figure has been underlined and shown in the size class to the left. The underlined average employment figure therefore, represents an average for two or more size classes.

Code	Industry group and industry	Average employment per establishment for--							
		All estab- lishments	Plants with--						
			1-19 employees	20-49 employees	50-99 employees	100-249 employees	250-499 employees	500-999 employees	1,000 or more employees
